

Easy and secure access to a variety of cloud services!

KDDI Secure Access powered by Soliton

Secure web access

Secure access is achieved through authentication by user and device* (PC or mobile device) . *Option

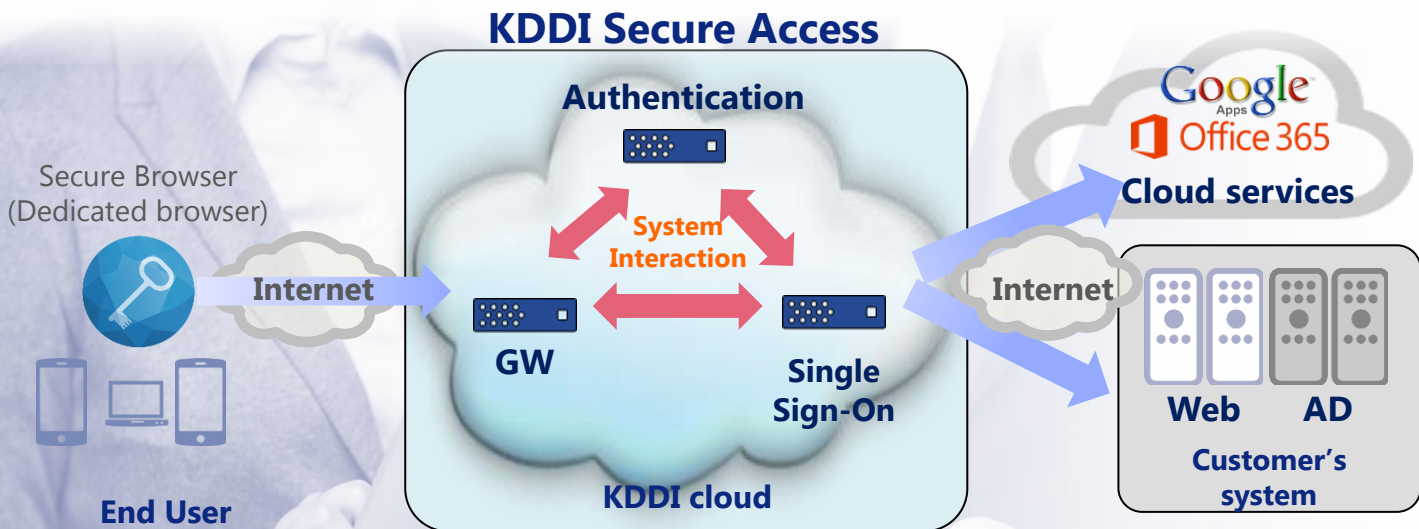

No sensitive data left on devices

Our dedicated web browser wipes stored data from devices automatically, keeping sensitive data from being leaked even when a device is lost or stolen.

Easy access through single-login

Connect to multiple cloud services instantly and safely

Secure and simple access!

Dedicated browser & gateway

Establish secure access and prevent data leaks

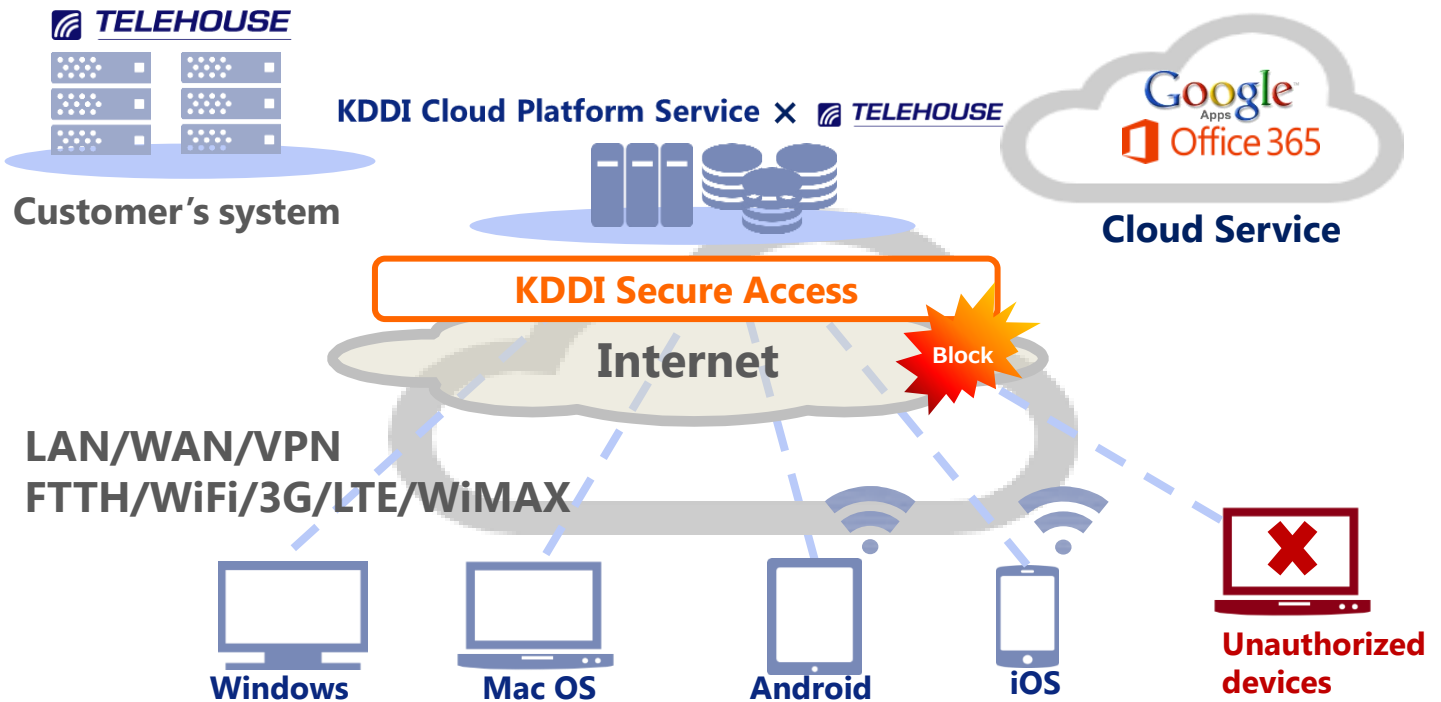

Authentication

Block unauthorized access with our powerful authentication system

Single Sign-On

Secure access from on or off company premises using a single ID and password

Support for multiple devices

Easy Deployment

- ◆ No specialized IT knowledge required for setup
- ◆ Multi-device, multi-OS-compatible interface
- ◆ Secure access without the need for a VPN

Pricing
